### AMENDMENT TO BE SUPPORTED BY PRESIDENT

Women Win Over Chief Executive For Cause of Suffrage

### MEASURES ENDORSED BY THE REPUBLICAN CAUCUS

Wilson Says Vote is Act of Right and Justice to Women of World

(Associated Press Telegram)  
Washington, Jan. 10.—One of the long and hard fought goals of the woman suffrage cause seemed to be in sight today when the house took up debate on the constitutional amendment.

Backed by the approval of President Wilson, suffragists were sure the Susan B. Anthony amendment would poll more than the necessary two-thirds when the house began voting at 5 o'clock this afternoon.

So certain were the suffragists of success in the house that they already have turned their attention to the senate where the amendment waits on the calendar but without such favorable prospects. They are hopeful, however, that with the President's aid they will break down the opposition and secure passage thereof. Then the question would be ready for submission to the states and years of effort would become reality.

Today's session furnished a spectacular scene. The house was in a happy mood and heard the arguments with applause and laughter. Women packed the galleries. It was a field day for the suffragists and buoyant with the expectation of victory they made the most of the occasion.

As the house met, among those opposed to the amendment there was a frank admission that the President's declaration had probably changed enough votes to insure adoption, although some of the opposition still contended it would be hard to break the alignment against it in the south.

Speaker Clark announced he would not vote from the chair unless there was a tie, in which case he would vote for the amendment. The session of the house was opened with prayer by Billy Sunday, the evangelist, who invoked Divine mercy on the President, the cabinet, the Allies and American soldiers. He referred to the world as sin cursed, denounced the Germans as a "wolfish pack of Huns" and prayed for peace.

In the senate, where a similar resolution, favorably reported, is now on the calendar awaiting action, an early vote is expected, but with present prospects unfavorable.

Recent polls taken by Senator Curtis of Kansas, Republican, and Hollis of New Hampshire, Democrat, both favoring suffrage, indicate an extremely close senate vote with the anti apparently in the majority. Representative Foster of Illinois, opened the house fight by offering the special rule which fixed four hours for general debate and reading of the bill for amendment to begin not later than 5 o'clock.

### PRO-GERMAN HEAD OF SCHOOL OUSTED

Prof. A. L. Breslich.

A committee of Methodist ministers, investigating charges of pro-Germanism filed by the students of Baldwin-Wallace college at Berea, O., against the college president, A. L. Breslich, has recommended his dismissal. The students charged that President Breslich "never denounced before the student body the crimes and atrocities of Germany in the war."

### COAL SHORTAGE IN METROPOLIS GROWS SERIOUS

(Associated Press Telegram)  
New York, Jan. 10.—Harry T. Peters, chairman of the fuel conservation committee, has appealed to the national fuel administration to reconsider its decision refusing to give priority to coal shipments to New York city.

Mr. Peters asserted today that the coal shortage here was "most desperate." Supply now reaching the city is only one-half of what is needed, he said, and unless relief comes soon, Mr. Peters predicted that hundreds of industries, schools and hospitals will have to shut down. One hotel and 58 schools were closed yesterday.

Since the police department assumed the task of distributing coal to the poor a few days ago, over 20,000 families have been supplied temporarily.

### CALL FOR DRY REPUBLICANS.

(Associated Press Telegram)  
Columbus, Jan. 10.—A conference of dry Republicans will be held here January 17 to "formulate plans for the coming campaign," as indicated in a call issued by Chairman Charles A. Reid today. The call is in the name of the coalition of Ohio dry Republicans. Eight hundred invitations have been sent out.

### AUSTRO-GERMAN SUPPLY LINES ON ITALIAN FRONT HAMPERED BY SNOWFALL IN ALPS

(Compiled from A. P. Dispatches.)

Snow has come to the aid of the Italians and the Austro-German offensive apparently has reached a halt, if not an end. The whole mountain front where the enemy has been making slight but steady gains is buried under from three to five feet of snow, making infantry operations impossible and hampering the Austro-German supply lines seriously.

Heavy snowfalls in the Alps are reported to have blocked the enemy communication system in the Trentino and Carnia, leaving them only two long lines across the Venetian plains to the Piave, which would be of no help to the snowbound troops between Lake Garda and the Piave. The enemy troops on the eastern bank of the Piave are not troubled so greatly by the snow but previous efforts to cross the river in force have failed.

The bombardment on the northern front has slackened with the coming of the long expected snow and only patrol engagements have occurred. It is indicated that the enemy will be unable to begin operations in an effort to complete his conquest of Venetia while his supply lines are snowbound.

On the western front the opposing guns have been active near the Scarpe in the Arras area; northeast of Ypres and northeast of Verdun.

The Germans have failed thus far to take counter measures against the successful French sortie in the Woerth.

British merchantmen lost during the last week equal the losses of the previous week, when 18 of more than 1,600 tons and three of less than that tonnage were sunk by submarines or mines. The French report the loss of one merchantman as compared with nine the previous week.

Peace emissaries of Russia and the central powers are meeting at Brest-Litovsk. It is reported that the first discussion revolved around the selection of a meeting place which has not yet been decided upon. It is added, however, that a settlement probably will be reached. The Russian government has refused Turkey's offer of a separate peace and has informed that country that she must participate in the general conference.

President Wilson's message has been endorsed by the British labor party and British public men from the labor, socialist and liberal parties. Attention is now directed to Germany and Russia to see what effect the message will have on the peoples of those countries. It is felt in London that the German government may be compelled to answer the president's address because of the continued difficulties between the militarists and non-militarists in Germany.

### WILL CONSIDER DEMAND FOR A WAGE INCREASE

McAdoo to Appoint Board to Deal With Railway Brotherhoods

### MEANS THE TRANSFER OF DISPUTES TO GOVERNMENT

Plans to Perfect Operation of Roads Are Still Being Considered

(Associated Press Telegram)  
Washington, Jan. 10.—Developments in the railroad labor situation today awaited Director General McAdoo's appointment of a board of four members to consider recent demands for wage increases made by the four railway brotherhoods and switchmen's union.

The naming of this board, which for the present at least probably will deal only with the pending demands of the brotherhood organizations and the switchmen, is the first step in government's plan to transfer wage disputes from railway executive's boards to government agencies. Indications are that higher wages will be asked of the railroad administration for nearly all classes of labor and the director general probably will deal with these demands through investigation boards designated for the purpose.

Strikes, it was learned, are not contemplated by any organization, however, and the wage question will not be put up to the government as actual demands.

The director general announced last night that he probably would name railroad directors for sections of the country to assist in government operation, but said the details of his plan have not been completed. It is considered probable that not more than six or seven will be named, and Mr. McAdoo said definitely that he did not expect to appoint state directors.

Senate and house hearings on the administration's bill to perfect government operation were continued today with railroad heads still testifying before senate committees and government experts explaining the details of the measure to house members.

### LICKING COUNTY SOLDIER DIES IN FAR OFF FRANCE

The death of Jesse F. Bonham, of R. F. D. 5, Newark, member of the American Expeditionary Forces in France, was announced in the dispatches to Washington today by General Pershing, head of the American forces.

The death is given as resulting from natural causes. Corporal Bonham succumbed to pneumonia and measles. With the death of Corporal Bonham, Newark's first soldier is claimed by death on French soil. He is the only son of Mr. and Mrs. Thomas R. Bonham who reside six miles south of Newark and is a nephew of C. E. Bonham, confectioner of North Fifth street.

Early in the summer, July 15, he volunteered for service, enlisting with Company B, Fourth Ohio Infantry which had a recruiting booth in South Park Place. Going to Camp Perry the troops were stationed there for a short time, and were then made a part of the Rain-bow Division, 166th Infantry, which was in camp at Camp Mills, N. Y.

He was 25 years old and had lived with his parents on the George Tabler farm and formerly attended the Brumbach school. After being in camp in New York, he was made corporal.

The members of the family had not been informed yet by the government and received their first news of the death through The Advocate.

### LARGE PROPERTY LOSS.

(Associated Press Telegram)  
Wilburton, Okla., Jan. 10.—James Garry, superintendent of the glazing department of the Patterson Powder company, at Patterson, Okla., near here, was killed today when an explosion wrecked the plant. As far as has been learned only one man was killed, although the property damage is large.

### COLD IN THE ROCKIES.

(Associated Press Telegram)  
Denver, Colo., Jan. 10.—Minimum temperatures for the winter were reported from many points in the Rocky Mountain district today. Montana temperatures ranged from 2 to 28 degrees below zero. In Wyoming the mercury registered at from 2 to 16 degrees below.

### NEW BRITISH AMBASSADOR TO U. S. TO DIRECTLY REPRESENT WAR CABINET

Earl Reading, New British ambassador, and Lady Reading.

Earl Reading, lord chief justice of Great Britain, is coming to the United States as ambassador to succeed Cecil Spring-Rice and to be the direct representative of the British war cabinet. Much of the routine embassy work will be taken off Earl Reading's hands, leaving him free for war work. He is bringing with him to Washington Lady Reading.

### "THE REMAKING OF A NATION," CAMP SHERMAN FILM, IS SHOWING AT WASHINGTON THIS WEEK

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Jan. 10.—Camp Sherman selects, who have been "immortalized" in the moving picture film made of the men of the Eighty-Third Division here, will be shown in every neutral and allied country, as well as in every state in the union, if plans announced here today materialize. The picture has been named "The Remaking of a Nation." Military authorities at Washington, after viewing the picture, pronounced it the best bit of military publicity that has ever been attempted. The film will be shown before the members of congress in a special show this week.

The film is almost ready for release to the cities of the state. Officials of the picture company, which made the picture, are laboring night and day getting the film in shape ready for the public.

While no more transfers to other commands will be made by the Eighty-Third Division until the measles quarantine on the camp is lifted, military authorities here are confronted with a shortage of men in Ohio and western Pennsylvania divisions. The new standard strength for an infantry division is slightly in excess of 26,000 men, including the hospital detachments. Camp Sherman's population yesterday was but 21,221 or a deficit of nearly five thousand. The men who are in camp, but who are not a part of the division, are attached to the depot brigade training battalions and special service units.

It was said at division headquarters that no further additions to the strength of the division are expected until after the second draft begins. Other divisions are said to be in the same condition, owing to the transfers of men for immediate overseas service.

To prevent contraband articles, such as whiskey coming into camp all parcel mail hereafter will be opened in the presence of the addressee and a representative of the company commander. All articles written by soldiers for magazines and newspapers and which pertain to military affairs must pass the censorship of Second Lieutenant K. R. Sturges of the 158th depot brigade. Major Eric Fisher Wood, who is Major General Glenn's personal aide, and who also has been second assistant chief of staff, has been appointed chief of staff to succeed Major B. B. McCroskey, who was transferred to the command of the 224th machine gun battalion. Major Wood formerly was an intelligence officer in the British naval land forces on the French front.

Twenty-six enlisted men today were transferred from various units to the enlisted ordnance corps. Twenty-nine additional selects were transferred to other units in camp. Twenty-four others were sent to the 264th ammunition train for service.

### THREE KILLED IN A COLLISION ON THE KATY FLYER

Austin, Tex., Jan. 10.—Three persons were killed and 11 injured at 2:10 o'clock this morning in a head-on collision between two section trains on the Katy Flyer at Granger, about 40 miles northeast of here, reports placed the number of dead at 16, but this later was denied by officials after investigation.

### Secretary Baker in Reply to Criticism of Conduct of the War Presents Statement to Senate Military Committee Today

### DEFENDS GOVERNMENT'S CARE OF MEN NOW IN SERVICE OR IN THE MANY TRAINING CAMPS

Total Number in Military Service Six Times As Great As Number Under Arms in Spanish American War Or One and One-Half Times As Large As Any Force Ever Mobilized By Nation—45,000 Officers Have Been Commissioned From Civil Life and 16 Cantonments Constructed at Cost of \$134,000,000

(Associated Press Telegram)  
Washington, Jan. 10.—Secretary Baker today replied to criticisms of his department's conduct of the war in a long and exhaustive prepared statement presented to the senate military committee.

Conceding delays and errors of judgment in so vast an undertaking, Secretary Baker epitomized his reply in these words:

"No army of similar size in the history of the world has ever been raised, equipped or trained so quickly. No such provision has ever been made for the comfort, health and general well-being of an army."

(Associated Press Telegram)  
Washington, Jan. 10.—America now has in France an army of "substantial" size, ready for active service, Secretary Baker today told the senate war investigating committee. Officers and men, he explained, have been trained specially for modern warfare, independent lines of communication and supply are in process of construction, and great programs have been formulated for the production of new instruments of war.

Arms of the most modern and effective kind, the secretary declared, have been provided for every soldier in France, and are available for every fighting man who can be sent to France in 1918.

An army of nearly a million and a half of men, enlisted and selected without serious dislocation of the nation's industries, is now in the field or in training, at home and abroad, he asserted. The subsistence of the army, he continued, has been above criticism, while its initial clothing supply, temporarily inadequate, is now substantially complete.

"I state the foregoing conditions of the war department's problem and some results obtained, for two purposes," he said. "In the first place the American people are entitled to know of the splendid effectiveness which they have been able to organize the man power and the material power of the nation in a great cause; and second, our army in France under General Pershing and our allies are entitled to have the benefit resulting from the depression of the morale of their enemies which must come when the Germans realize American democracy has neither blundered nor hesitated, but actually brought the full power of its men and resources into completely organized strength against their military machine."

"No army of similar size in the history of the world has ever been raised, equipped or trained so quickly. No such provision has ever been made for the comfort, health and general well-being of an army."

"By the co-operation of all interests and all people in the country, the nation is now organized and set to its task with unanimity of spirit and confidence in its powers. More has been done than anybody dared to believe possible. That there have been here and there errors of judgment and delays goes without saying; but I should be wanting in frankness were I to omit my own estimate of the real unselfishness and intelligence with which my associates, military and civilian, have applied themselves to this undertaking, and the results demonstrate the success of their efforts."

The secretary gave the committee an outline of the work of the department and its various bureaus.

"On the first day of April, 1917, the regular army," he said, "comprised 5,791 officers and 121,797 enlisted men; the national guard 3,733 officers and 76,713 enlisted men; and the reserve 4,000 enlisted men. There were also at that time approximately, 2,573 officers in the reserve, but as these were on inactive duty they cannot properly be consid-

ered in estimating the strength of the army of the United States at that time. On the 31st of December, 1917, the regular army consisted of 10,250 officers and 475,000 enlisted men; the National Guard of 16,031 officers and 400,900 enlisted men; the national army of 480,000 men; and the reserve of 84,575 officers and 72,750 enlisted men. In nine months the increased has been from 9,254 officers to 110,856 officers and from 202,510 to 1,428,650 men.

"During the war with Spain, the army of the United States at its maximum strength aggregated 272,000 men and officers. The army now in the field and in training is, therefore, roughly six times as great as the maximum number under arms in the Spanish American war."

"The total number already in the military service is one and a half times as large as any force ever mobilized by this nation."

"A substantial part of our military forces was selected by the operation of a draft law, the execution of which has demonstrated both the economical and the efficient way of selecting soldiers. The law itself was drawn, its execution carried to a successful conclusion." (Continued on Page 2, Col. 1.)

### SENATE WARNED AGAINST GERMAN PEACE OFFERS

(Associated Press Telegram)  
Washington, Jan. 10.—Senator Kenyon, who recently returned from a visit to the French front and to England, today warned the senate against Germany's peace offers and stories that the country was exhausted. "Nothing could assist Germany more," he declared.

"Those who are trying to help in bringing about a patched up peace and lend their influence in that direction, are weakening the American forces, weakening American preparation," he said, "and they had best to remember that it will cost us more now to lose this war than to win it."

Senator Kenyon in relating his experiences, said that what he had seen in France had aroused him to such a pitch that he wished the Kaiser might be compelled to be at sea in an open boat that was being shelled, that the Kaiser might be blown up and that he might be placed where bombs dropped around him during a London air raid.

Pointing to the fact that it took England two or more years to get ready to fight he declared there was no reason for gloom in this country now, but "the saddest words this nation can ever write if it falls in this emergency by reason of delay, will be the words 'too late.'"

"We must bring to the western front two million men and have a million in reserve," Senator Kenyon declared. "We must do it as quickly as possible. We must cut red tape; stop quarreling about the guns and (Continued on Page 5, Col. 2.)"

## RAILROAD OPERATION.

Opinions differ very widely on the extent to which the government should go in its experiment of railroad control. There are certain general principles of business success that all people of sound sense will want to see recognized.

It will be a big question to decide, how far the government should interfere with the organization and executive forces of a railroad corporation. If on some roads it appears that good results are not being attained, it is not moving as it should, it is to be expected that the government will insist on changes.

The people will wish to have the element of politics entirely cut out. They will not want any man to be advanced or retarded because he is a Republican or a Democrat. Nor will they want congressmen attempting to interfere and secure jobs and promotions for their friends. In handling the executive forces of railroads, the government should be governed solely by the capacity men have shown in their past record.

It has frequently been complained that the railroads, under their old managements, have been too much under the control of the bankers and financial men who financed the roads, and that men who worked on the purely operating side found it difficult to secure advancement, or did not get the chief prizes. If this tendency exists, it is one the government should frown upon.

Operating a railroad is as big a task as there is in the country. It needs the highest type of men. It requires a great gift for handling men, organizing business, and controlling activity. It takes a man who thinks quickly, who can plan ahead and foresee conditions, and be ready in advance to meet exigencies, and see all around and through complicated situations. Any man who has a talent for this kind of management should be promptly promoted, and is entitled to a generous reward.

## ASTRONOMICAL EVENTS.

The Big Dipper is east of north, with handle resting on the horizon, in the evening. South of it, also low, the faint cluster known as the Beehive may be seen on a clear night.

## WAR AND TUBERCULOSIS.

One of the perils of war in the trenches is the dread foe tuberculosis. The French have had 150,000 soldiers infected with it. They have all gone home spreading the infection in their own neighborhoods.

Meanwhile, the English have been practically free from this scourge. Their physicians have been very careful about the infection. The result is seen in the good health of their troops. American medical science is very advanced, and we may expect our boys to get equally good protection. It will be up to them to trench the peril.

French life is favorable to the disease if precautions are not taken. Wet feet and clothing produce colds that might develop in that direction. The ways in which tuberculosis spreads are thoroughly understood. The infection can be stopped by the observance of strict rules that the medical corps will establish.

In one way the situation is favorable to a better hold on this plague than was ever had before. The young men of the country are being closely examined for physical defects. Had it not been for the draft many of these fellows would not have realized this tendency until the disease had made serious inroads.

Now thousands of them with a slight infection know about it in time to cure themselves. It is their patriotic duty and the act of common sense to fight the beginnings of this disease. If they will do this and take pains to prevent infection from spreading, the war will have proved a blessing to them and a source of peril will have been removed from the community.

## ADVERTISING LOCALITIES.

States, cities, and sections are just waking up to realize how they might gain by advertising their advantages. The Southern Commercial congress took a far-reaching step when it appointed a committee to raise \$1,200,000 to advertise the south. No doubt they will get a lot of new travel and many residents therefrom.

There is a good deal in this idea if it were judiciously carried out. Summer and winter resorts are doing a lot of this thing now and they find it pays. They distribute booklets and circulars descriptive of their locality as a whole. Hotels, railroads, and other interests combine to get out this literature, so that no large burden is placed on any one interest.

The resources of our state of Ohio may be thought to be thoroughly realized and understood by the country at large. Yet there is much land not developed as it might be, many admirable sites for factory production not yet used, many delightful vacation resorts not well known outside of the small circles of habitues. A judicious use of publicity work can bring these things to the attention of people who travel or might locate their business here.

There should be interesting booklets available for all inquirers, and some organization whose business it is to see that they are distributed in hotels and other place of popular resort.

One good way to advertise your locality is to send away copies of The Advocate. Take an issue with accounts of some important civic or industrial event and send a dozen copies around to our friends. You will be surprised to see how much interest they will express. The impression will circulate around that Newark is a mighty good place to live in.

## HONEST TAX RETURNS.

The man who receives a straight salary and knows just what his income is, will not usually falsify it. Those who are engaged in manufacture, farming, trade, etc., face a more difficult problem. It will be the tendency of some to place low estimates on value stock in trade, since that will reduce business profits. The only wise way is to estimate one's own business on the same basis as he would make an impartial appraisal of another person's property. The satisfaction one gets from the sense of dealing fairly with his neighbors and the government, should be worth all the tax amounts to.

## FERTILIZERS.

Every cannon crash and every bursting bomb on the battlefields of Europe uses up important fertilizing materials. A single skirmish may consume more potential plant-food than would be required to feed the fields of an entire township, and the quantities burned up during a real bombardment are tremendous. Last year more than 600,000 tons of nitrate went to make explosives in the United States alone.

Fertilizers and warfare bear a most intimate and most sensitive relationship. War decreases the supply of fertilizing materials and at the same time increases the importance of their use. Food production

takes on a patriotic aspect. The farmers tools of production become of importance second only to the needs of the army itself.

Every ton of manure and straw should be saved and hauled to the field. Fertilizers should be ordered early and used on all intensively grown crops. They mean bigger crops and save labor at a time when it is scarce in that they make every acre return its utmost for the work expended upon it.

All that Secretary McAdoo now has to do in a day, is to raise a billion of dollars in Liberty bonds, revise the rules and timetables of all the railroads, attend to several million workmen who demand more pay, get every kind of freight moved ahead of every other kind, and talk with all the people that want jobs and contracts.

Most people don't heed the appeal to feed the birds in winter because they are too busy. Next summer they will also be busy, trying to kill the insect pests that flourish owing to the scarcity of birds.

The question is not whether you can afford a thing, but will you, by buying it, compete with the government? Buy War Savings stamps and answer this question to the satisfaction of all.

While our industries are crying and weeping for able-bodied men, a lot of sleeping-car porters are kept busy totting around little bags for lazy passengers.

All the small nationalities have got to do to get their complete independence is to agree to do everything that Kaiser Bill wants.

Of course, the big cities must have their "white ways" a little brighter than daylight, even if the poor haven't any coal.

The people who understand the least about the new income tax are usually those who have just attended a lecture explaining it.

If you want to make sure that no Bolshevik will ruin the nation, but War Savings stamps and urge your neighbor to buy them.

In these scarce labor times, a lot of our industries have got to be manned by women.

## Spirit of the Press

## No Time for Disruption.

The action of the United States Supreme Court in asking the seven anti-trust cases pending before that body until another term is consistent with the need of the government that every energy and facility of business enterprise and organization shall be utilized in co-operative effort for the conduct of the war. The obvious reason is offered that the present would be an unpardonable time for the disturbance of the money market consequent upon a dissolution and reorganization of these great corporations. But the formula of centralized control which has been worked out and tested by these geniuses of modern business enterprise is the method by which the government hopes to solve the most serious of its domestic problems of war management and economy.—Philadelphia Bulletin.

German greed still paramount. If the Bolshevik government is beginning to discover that no faith can be put in German imperialism, it is only discovering what is true. President Wilson told the world long ago. There is no honesty in the German military despots. We do not know what Russia can do about it. Demoralized Russia is in no position to defend itself successfully from invasion. Her experience ought to carry a warning to every pacifist.—Every peace advocate—in the United States, England and France. Germany does not want a peace with Russia that is fair to Russia. A monster of iniquity and of savagery is throttled. Let us hear no more of peace talk, therefore. Rather let us renew our energies and summon every resource for a fight to the finish.—Philadelphia Inquirer.

Gradually Coming to Time. Germany's peace proposals evidence the fact that Germany has had enough of war and is anxious for the restoration of peace. It is not ready to admit that it is beaten or that it cannot hope for success if it continues the war. But its offer is better than had been expected. Nor is the assumption warranted that Germany's peace offer is insincere. Probably it is sincere for Germany is worn out with war and is sincerely desirous of peace. The latest offer shows that it is making progress toward meeting the terms of President Wilson and gives color to the hope that eventually the German war government will be ready to meet fully those terms.—Anaconda Standard.

No more welcome announcement regarding the conduct of the war on our part could be made at this time than that by Secretary Lansing revealing our purpose to send a great army to Europe at once, as rapidly as it can be mustered and trained. On with the big army to France, therefore. We have now been at war since the first week of April and that big army ought now to be ready, if not quite, an actually. It does not take a year or even six months to make a soldier of an American. Send our boys in khaki to the front, where now they are most needed, and they will prove it.—Louisville Courier-Journal.

## AN IMPORTANT ADDRESS.

(Columbian Citizen.)  
Our grandchildren and great grandchildren will read in their school histories of the speech which Woodrow Wilson made Tuesday to the congress of the United States. Three vital things stand in its pages like lighthouses:

1. The appeal to the people of Russia to stand by a democracy of the world.

2. The challenge of the non-military people of Germany to unhorse their masters.

3. The broad foundation structure which the president erects for a world peace and a world society.

Of these three things, the appeals to the peoples of Russia and of Germany are the big strategic drives. How effective they will be, one cannot dare to forecast.

The pity is that this great message from a free people, of whom the president is the mouthpiece, will undoubtedly be suppressed in Germany by order of her military rulers.

In Russia the speech is more apt to be fully printed and to have a tremendous effect. It is not too much to hope that it will prevent a separate peace between Russia and Germany.

To the Russian people the message is that America will stand by the Russian democracy, even if that democracy is not fashioned to the pattern that we would choose.

To the German people the message is clear that there can be no lasting peace so long as they permit the kaiser and his little group to usurp their rights.

But the greatest thing of all is the president's picture of A League of Nations to enforce a universal peace.

Europe is asked to join the United States of the world.

Even Germany will not be denied admission if she applies in the proper spirit. She may now enter one of two doors. One leads to the parliament of man, the other to the slaughterhouse.

As we await events, let no one be lulled by false hopes of peace. Until peace comes, each of us must give every ounce of his energy to the war—the war for peace.

## INTERNATIONAL EXCHANGE OF SLANG.

(New York Evening Post.)  
Lloyd George is said to have shocked the British public in his famous Paris speech by the use of "yea" instead of the more sober "yes." A comic paper, with an eye to our co-operation in the war, stated that perhaps he meant to say "yep." It seems to be a matter of remark on the other side that our slang has been inter-penetrating the King's English. English statesmen have been reported as pounding the diplomatic table and stating the "we put it across." Generals are reported to have concluded an order of the day with the words, "Soldiers of England, it's up to you!" When Asquith fell, a stand old member of Parliament is said to have remarked: "I knew he would get in bad." "Some," in the superlative sense, has risen to the dignity of discussion in the staid old Manchester Guardian. How have we reciprocated this British courtesy? We have adopted such expressions as "doing our bit," "slackers," "over the top," and certain other war expressions. But ordinary English slang has passed over our heads. "Side," "doing someone in the eye," "fancy," "jigger," and the rest have not yet reached us. Courtesy might point to our cultivation of them. But good sense, let us hope, will keep us to our own idiomocracy of Mark Twain's soil.

## HIRING EMPLOYEES.

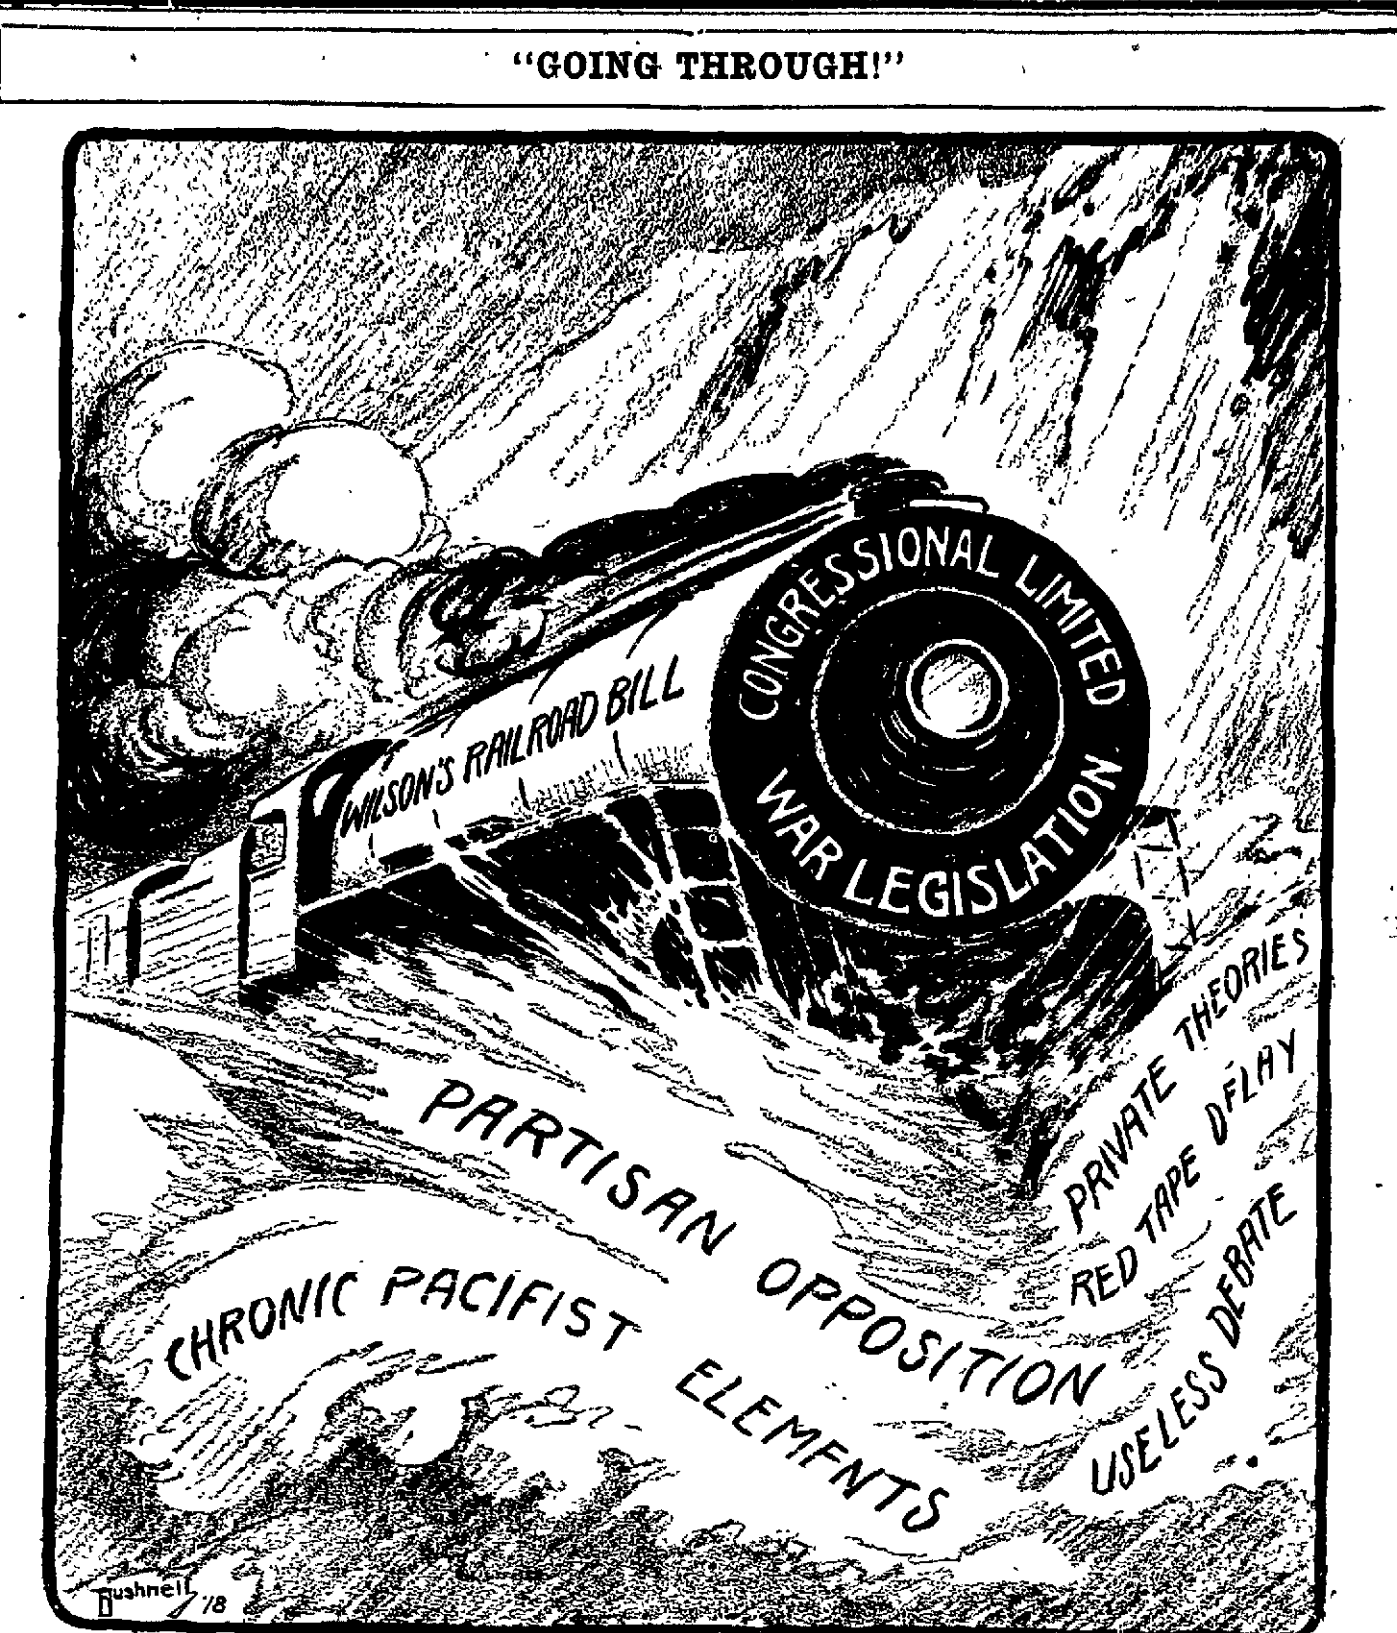

(Ohio State Journal.)  
The great banker and financier, Frank Vanderlip, gives some hints to be observed in choosing men to help in a bank. The hints are just as good for trade or industry. These points in the applicant should always be considered: Appearance and manner, initiative and self-reliance, industry, character, personal history. All these constitute the personality of the man seeking employment, and the employer should canvass each point carefully. Whether a man is good or not for the position desired can only be ascertained when it is learned that he measures up to all the requirements implied in these conditions. A person must have a good character, he must be diligent, his appearance and manner must be agreeable, and then he must be a man who doesn't have to ask how to meet every little difficulty that arises, but from his own initiative and self-reliance solves the difficulty for himself. A clean, diligent, self-reliant personality is what is needed in all employment, and every employer should as a public duty as well as a private one, see that such a personality is preferred.

According to a nation-wide poultry survey the farm flocks have been greatly decreased within the past year.

Therefore as a patriotic duty every family in the county should put forward every effort to produce some poultry and eggs to help in the war.

like things, and carry this thing through on a businesslike principle. It is not possible for each individual to quit thinking about what some one else should do and resolve to do everything he can do. It is not enough to do our bit. We must do our best. There is too much grandstanding and limelighting; too much patriotic posing and not enough self sacrifice.

"Out of this war," he continued, "will come great things to our people. We will have no hypenated Americanism in this country. It is not a time for partisanship or politics and I may say it is no time for inefficiency in any departments of our government."

Senator Kenyon said that in "this spirit of non-partisanship," he would like to see a coalition cabinet including Elihu Root and Theodore Roosevelt and that the service of William H. Taft might be used in some of the commissions sent abroad.

## FRENCH ORPHAN ADOPTED BY THE MODERN WOODMEN

Cedar Camp 4727, Modern Woodmen of America, showed its patriotism as an organization on Wednesday evening at the regular meeting of the lodge.

The Camp through U. S. DeMottin of Greenville, Ill., adopted a French orphan. This means that the camp will supply enough money to clothe and feed a fatherless child, of whom there are many in France. The camp also voted to spend \$1000 from the general fund for war certificates, and \$100 from the safety fund. This is the largest amount of certificates any one organization is permitted to purchase.

## SAVING OF FABRIC

### Conservation Idea Carried Out by the "Wrapped" Skirt.

New Style Feature Can Only Be Used to Advantage in Connection With Bustle Silhouette.

Two style features of the season are portrayed in the sketch here shown. One is the "wrapped" skirt and the other is the bustle silhouette. These two are really properly shown together, inasmuch as the "wrapped" skirt without the aid of the bustle flare would be rather too narrow and close-fitted, whereas topped with the bustle a very attractive silhouette is the result.

The "wrapped" skirt is of necessity rather narrow at its hem or lower edge, inasmuch as a section of fabric cut the right length for a skirt is sim-

The "Wrapped" Skirt.

ply draped about the figure and drawn high at the back, where it is tucked in and puffed to form the bustle, with one side of the section of fabric hanging straight to form the skirt proper.

Many of the latest Paris evening gowns feature this skirt, and it accords very well with the government suggestion for fabric conservation. It can only be strongly recommended as part of an evening gown or for a "hostess" gown.

For the gown shown a rich brocade silk was chosen. The bodice, with full neck and long sleeves, fastens invisibly in the center back.

A little inside bodice or yoke of tulle fills in the space between the shoulders and the sleeves, elbow length and finished with a deep ruffle, are also of tulle. The front of the bodice is fitted basque fashion and cut in a little point at the waistline. A little V-shaped vest or yoke of tulle is also let in to the front of the waist, matching the arrangement of the back.

This gown is extremely simple and could be made at home. Its grace and beauty depend upon the care used in arranging the drapery.

To make this gown for the average figure five yards of material 36 inches wide will be required.

## SPATS POPULAR FOR WINTER

Gaiters Over Ties and Pumps Were in Pronounced Majority at Horse Show in New York.

Spats are going to be worn again this winter, if indications at the horse show at Madison Square Garden are to be followed, says Women's Wear. Ties and pumps were almost the only types of footwear seen, accompanied in nearly every case by spats.

There were a few lace boots of dark tan with lighter tops, and one young girl wore tan oxford and worsted stockings in a gray heather mixture. Gray, almost bordering on rose taupe, was the keynote of this entire costume, one of the smartest there.

The suit was of gray duvetyne; the skirt plain, the coat knee length and gathered in by a loose belt of the material. The small toque was of the same material, with a short visor effect. There was no trimming on either hat or suit, but a taupe fox scarf was thrown across the shoulders.

## NOTES AND NOTIONS

The fashionable suit is rather severely tailored.

Hats with flowers are promised for the future.

Tassels are popular on millinery.

All draperies should fall in perpendicular folds.

Tailored shirts favor the masculine shirt bosoms.

Bustles or bustle effects are increasing in number.

Many of the smartest frocks have Chinese embroidery.

Blouses are showing necks elliptical instead of round.

Black velvet and white duvetyne are charming together.

The worm will turn. Sometimes it will even return.

## GRANVILLE

(Special to The Advocate.)

Granville, Jan. 10.—The first program of the Music Club since December 12th, was presented Wednesday afternoon at "Monomoy Place" with Miss LaFerre as leader. This was the first of five great Beethoven programs planned by Mrs. White in which a comprehensive view of the life and work of this eminent composer is to be given. Miss LaFerre was happy in her choice of incidents affecting the early life and career of the eccentric genius, who always maintained the right use of his gifts placed him far above the necessity for any prince's favor. Mrs. White exhibited a picture of Countess Theresa von Brunswick to whom Beethoven became engaged in 1806—the happiest year of his life—and pointed out the fact that "Symphony No. 4, B-flat major," which opened the program, and which fairly scintillates with brightness, beauty and joy, was written in that year. The playing of the five movements of this beautiful symphony by Mrs. Darrow and Mrs. Ashton was a really notable performance.

A group of three songs, "Prayer," "Death" and "The Power of God" was sung by Mrs. Ernest Shepardson, soprano; "Sonata, Op. 81," Miss Ruth Rockwood; "Adelaide," a song by Mrs. J. W. Rohrer, soprano; "Rondo in G-major," Miss Eva Wright; a group of songs "Marmotte," "Mallied," Mrs. J. W. Ognive, soprano; Overture—"Egmont, Opus 84," Misses Eva and Lou Wright; Mrs. Darrow accompanied Mrs. C. D. Coons presented an interesting series of "Current Events." The singers were in splendid voice and their interpretations were highly appreciated. The pianists were at their best, revealing technique and musical understanding of a high order. A large number of members, associates and guests was present, among out of town visitors being: Mrs. James A. Huston, Jr., of Rochester, N. Y., and Mrs. Henry E. Eaton of Burlington, Iowa.

Mr. and Mrs. James A. Huston, Jr., of Rochester, N. Y. Mr. and Mrs. Henry E. Eaton with their little daughter, of Burlington, Iowa, are visiting their parents, Mr. and Mrs. James A. Huston at "Wilkinson" on the Columbus road. Both young men enlisted some time ago in army service. Mr. Huston is executive secretary of manufacturers in the membership board of the National Red Cross, stationed at Washington, D. C. Mr. Eaton leaves the officers' training camp with a first lieutenant's commission, and soon is to go into camp at Peoria, Ill. Mrs. Eaton will return to her home in Burlington, accompanied by her sister-in-law, Mrs. W. Chamberlain.

President C. W. Chamberlain left last night for Chicago to attend meetings of Doctors' Colleges of Presidents of American Colleges, and a meeting of laymen called by Ambrose Swasey of Cleveland.

Little Elizabeth Chamberlain remains in quarantine simply as a precautionary measure as she has been hardly sick at all. The children too remain away from school until all danger of infection is past.

Mr. and Mrs. Robert G. Bell of Jamaica, Long Island, are expected to arrive in Granville Saturday morning, for a visit with their parents, Mr. and Mrs. Burton Case.

Miss Margaret Colwell of the junior class in the Connecticut College for Women, has left to resume her studies. She is a week late on account of the illness of her father, Dr. R. S. Colwell, but his condition is so far improved as to justify her leaving home. Prof. William A. Colwell of Brooklyn will arrive tomorrow for a week-end visit with his parents.

## Milady's Boudoir

Cold and dampness work havoc with delicate feet, therefore they should be kept free from moisture and penetrating cold. They should not be permitted to become wet with rain or slush for the latter will produce a flourishing crop of chilblains more quickly than any other indiscretion.

Every precaution should be taken to keep the feet warm and dry. Inner soles counteract the effect of dampness and are available in many grades of thickness and in every size. Cork soles are excellent and appear in many styles for walking boots. When these are not worn a shoe with a substantial sole give the feet the necessary protection. While cloth top shoes are fashionable they do not keep the dampness out and the heat in as leather does.

A change of hosiery and shoes should be made the first possible moment they have become wet. Rubbers are very fine and for this reason, I suggest the wearing of san- dals and cloth gaiters in place of the heavy rubbers which cover the whole feet. The natural perspiration of the feet has no chance of being absorbed and, consequently, the moisture renders the feet sensitive to chilblains.

Another frequent cause of chilblains is a sluggish circulation to which persons of sedentary habits are prone. Cold feet and cold limbs result and, of course, it is but a short step to trouble. Walking daily for half an hour or longer id-

good weather is advised as a means of stimulating the circulation. There are special exercises to bring the blood to the feet and limbs and these should be closely followed night and morning. The diet likewise plays an important part, and should be of a simple and nourishing nature, calculated to enrich the blood and provide for sufficient warmth. Where the blood is impoverished it is necessary to correct this condition before any tendency toward chilblains can be corrected.

## Our Boys and Girls

A truly invaluable nursery possession is a tray of sand which will fit upon a small table or even on the floor. The tray should have the edges built up to a height of four inches or over and should contain a heap of clean sand. The sand, when lightly moistened, can be fashioned into all manner of fascinating objects, from the elementary castle of baby's imagination to a complete railway line with stations, bridges and tunnels and through toy trains may be run, or the daintiest of miniature gardens planted with twigs and leaves and bordered with massive rocks formed of stones. This sand garden need take no room that is appreciable for the little owner can be taught to scoop up the sand and keep it in a closed receptacle, the empty tray being put out of the way until time for use.

To keep children's rubbers where there a number of children in the family and, therefore, a large collection of small rubbers, the following plan may be adopted with entire success. Provide each child with a patent clothes pin, the kind that has a wire spring. Mark the child's name on the clothespin and teach him to fasten them together with it, when he takes his rubbers off. The clothespins should be kept conveniently for the children to find and the use of them in this way, we will find, will save much trouble and confusion.

## Every Day Etiquette

"Should I invite a young man to call on me or should I wait for him to ask if he may call," queried May. "Sometimes circumstances make it proper for a young lady to invite a young man to call on her, but usually she will wait for him to ask if he may," said her mother.

## WILL CONSIDER DEMAND FOR A WAGE INCREASE

(Continued from Page 1)

Jersey, Republican, led off the debate opposing the amendment.

Indications were that the vote would come between 5 and 6 o'clock.

(Associated Press Telegrams.)

Washington, Jan. 10.—With President Wilson's unexpected support, the eleventh hour endorsement of a republican caucus, the woman suffrage amendment came up in the house today under agreement for a final vote before adjournment.

The president's stand in favor of the amendment was announced last night after 12 democratic members of the house called at the White House for advice from the head of their party on the position they should take. In a brief statement, dictated by the president and made public by the delegation, the president advised the congressmen "to vote for the amendment as an act of right and justice to the women of the country and the world."

A few hours later house republicans in conference unanimously adopted a resolution urging republican members to support the amendment "insofar as they can do so consistently with their conscience and the attitude of their constituents." The action of the republicans was not wholly unexpected since a large majority of the party had been known to favor the amendment but the president's stand came as a surprise to nearly everybody in the

## SAYS HIS PRESCRIPTION

HAS POWERFUL INFLUENCE OVER RHEUMATISM

Discoverer Tells How He Found Cure Not to Take a Cent of Anyone's Money Unless Alleviated Completely Banished All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of ceaseless struggle, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body. With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system. He freely gave his discovery to others who took it, with what might be called marvellous success. After years of struggle he decided to let everyone everywhere know about his discovery through the newspapers. Evans Drug Store has been appointed agent for Allen in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.—Adv.

## ADVISES MOTHERS TO GIVE THEIR CHILDREN FATHER JOHN'S MEDICINE FOR COLDS, COUGHS AND BODY-BUILDING

"I have been giving my children Father John's Medicine for eleven months and have found very good results. My baby, Charlotte, of 17 months, was very small and did not thrive. I took her to several doctors but not until I began giving Father John's Medicine did she gain in weight. Both children have a good appetite and healthy color since I have given them Father John's Medicine. Have also found good results taking it myself as a builder. My advice to all mothers is to give their children Father John's Medicine." (Signed) Mrs. Lawrence Diemer, 723 Wythe Ave., Brooklyn, N. Y. Father John's Medicine is the safe family remedy for colds, coughs and grip. A doctor's prescription with 60 years of success.

A BUSINESS ROMANCE. There are few people in any civilized part of the world who have not heard of the well-known kidney remedy, Doan's Kidney Pills. The story of the introduction of this remedy from country to country until the globe had been girdled would read like romance. It is a strong testimonial to the merits of a remedy which has now been on the market for fifty years and for the progressiveness of a typical American business firm, Foster-Milburn company, Buffalo, N. Y., who have inspired confidence everywhere, in their advertising, by the use of local testimonials.

## WRESTLING BOUT TONIGHT EXCITES GREAT INTEREST

The Dowser-Kilous wrestling match at the Auditorium will be witnessed by one of the best crowds of the season as the demand for tickets has been greater than any previous bouts. This is accounted for not only on account of the popularity of the two principals, but on account of the first appearance here of Vatty Matsuda, the clever Jap mat artist, who will wrestle with Young Jordan of Chicago, one of the best known welter-weight wrestlers in the country.

PAUL BOWSER.

lers in the country. This match will prove as interesting as the main affair, the Jap demonstrating his own peculiar style of work upon the mat.

Bowser has trained hard for tonight's bout, knowing that his reputation for cleverness is at stake. Kilous would give half of his earthly possessions to obtain a decision over the middle-weight champion as there has been but little else but rivalry between the two men for several years. There is no denying the fact that Kilous is a whirlwind and one of the best men of his weight in the country. He is in demand in many of the big cities where he is considered one of the best cards in the business and he is a tireless and indefatigable worker as has been demonstrated by his previous matches in Newark.

Bowser, too, realizes that the decision will mean much to him and he will do his best to obtain a victory over the clever Greek. Bowser will meet the latter at every turn and if the Greek starts his rough house tactics, for which he is famed, he will find the local man just as rough and tough. The bout will undoubtedly prove the best one staged since last winter and it's going to be a big treat to those who are present this evening.

There are a number of good seats left and they can be secured by calling at the box office any time this evening. The first preliminary starts at the usual time, 8:15.

## HOLDS BIG WAR INDUSTRIAL POST

Mrs. Katherine Phillips Edison.

The first woman in the country to hold the important post of industrial mediator is Mrs. Katherine Phillips Edison of California, who has recently been appointed to that work in her state by Secretary Baker. She will act as the federal mediator in any industrial dispute which may arise in government contracts, as in the making of army and navy clothing and so on. Mrs. Edison is also an executive officer in the industrial welfare commission of California.

## CASE DISMISSED CONDITION THAT SHE LEAVE TOWN

Miss Myrtle Turner Chapel, who was arrested on the charge of obtaining money under false pretenses, as the result of an effort to sell an advertising book scheme in Newark, was discharged by Mayor Atherton on condition that she leave town at once.

The affidavit for the young woman's arrest was filed by Mr. J. C. Krieg, manager of the New King company. Mr. Krieg stated that the woman had assured him that her proposition was endorsed by the ministers of Newark but that inquiry from a half dozen of the leading pastors showed that assertion to be false. Mr. Krieg took action in the matter for the protection of the merchants and the general public and not with the idea of persecuting anybody. He could not doubtless have pressed the case to a successful conclusion, but was satisfied to have the solicitation stopped and to have the woman leave town. A half dozen other Newark merchants corroborate Mr. Krieg's statement of the matter.

### Origin of the Greek Church.

Apart from theological discussions, such as those rising from the addition of the words, "and the son," in the creed, the separation of the Latin and Greek churches may be traced to the founding of Constantinople and the political division of the Roman empire, according to a Bible student. Ignatius, patriarch of Constantinople, had been deposed, and was succeeded by Photius, who summoned a council of the East in 867, and passed sentence of excommunication on the bishop of Rome. The churches became reunited towards the end of the ninth century, and remained so until the middle of the eleventh century, when in 1054 Michael Cerularius, patriarch of the East, renewed the condemnation of the Latin church, and was in turn excommunicated by Pope Leo IX. Efforts toward reunion were made from time to time, and at Ferrara (1439) the Greek prelates signed a decree of union, but were forced by the people and clergy to repudiate it. Since then the two communions have remained separate.

### Record Floods in China.

The Celestial Kingdom has been the scene of some of the most terrible floods on record, observes London Tit-Bits. In 1801 the Yellow river overflowed and destroyed nearly 2,000 villages and towns and 5,000,000 people. Two years later there were great inundations in Mongolia, caused by typhoons, resulting in a death toll of 6,000.

## AMUSEMENTS

## CORTEZ UP TO DATE

When Cortez conquered the Aztecs many years ago, he was considered a God by the Indians. His soldiers carried long arms from which shot tongues of flame to the great dismay of the natives and thus he had a great advantage over those he attacked. Recently in California, Cortez again attacked and conquered the Aztecs and once more he had a great

advantage over the Indians. Not only did he use firearms as against the crude implements of warfare of the natives, but in addition, an extensive telephone service was at his command to carry his directions to his forces. The recent occasion marked the big battle scenes for "The Woman God Forgot," Geraldine Farrar's new Artcraft film spectacle in which thousands of persons took part.

pense and return from music and performance that is better rewarded than the pianist than all the cheering and applause. She may or may not have perceived the happy instant being evidently intensely stirring to her work as was the audience to its pleasure; while, as for plaudits, none have been heard in Kintana's this fall at a pianist's recital except when Mr. Paderewski played.

Mme. Leginska comes to the Auditorium Monday evening. Seats will be placed on sale Friday at 10 a. m. Mail orders are being received now.

**The New York Peacock.** Owing to a change in booking, the Auditorium will show on Saturday only Valeska Suratt, noted Queen of Dress and a William Fox Star, who is seen in "The New York Peacock," a Harry Hilliard, handsome leading man is seen and Miss Suratt plays one of her cleverest Vampire roles and she is sure noted for that kind of stuff. In this her gowns are wonderful, some of them being to the extreme and weird, but she wears them well and to the fair sex looking for novel creations, she says. The New York Peacock Saturday together with the two-reel Fox comedy, "Her Shadow," also the Hearst-Pathe News which is full of latest world events.

**Princess Pat.** Mr. Fred Lorraine, is in the city heralding the appearance of Victor Herbert's latest opera "Princess Pat" which comes to the Auditorium Thursday afternoon and evening, Jan. 17th. Great as was the success scored by this famous writer in his earlier musical comedies "Middle of the Road," "The Red Mill," "The Prima Donna," etc., it is said that "Princess Pat" his latest work would excel them all. Presented in a few cities last season it was invariably credited with having made most favorable impression and a return for its return engagement are very general.

**"A Branded Soul."** For Sunday picture fans, Mgr. Fenberg has arranged another classy program. Gladys Brockwell is the star and will be seen in the William Fox feature "A Branded Soul," a photoplay that will reach the heart of every woman for men, too, and children may learn. The story by E. Lloyd Sheldon was directed by Bertram Bracken. The story tells of Conchita Cordova, a Mexican girl who comes under the power of an unscrupulous millionaire. Instead of treating her as he is treated many other girls, however, he is led by her simple faith and piety into renouncing his evil ways. In the cast with Miss Brockwell is seen Lewis J. Cody, Colin Chase, Vivian Rich, Gloria Fayson, Willard Louis, Fred Wiman, Barney Furey and others. A two-reel comedy will also be shown.

**GRAND.** The Triangle-Ince picture featuring Bessie Barriscale, "Blue Ridge," will be seen at the Grand theatre on Thursday and Friday. The story is a romantic tale of the Virginia mountains, in which a writer from Yankeland wins the heart of the mountain maid. Cordova has a near-bet with complications. Arthur Shirley appears in the role of the author.

**ALHAMBRA.** Tonight. The sort of a picture that is looked talked about because of its interest, its splendid acting, its fascinating settings and its real charm, is "The Awakening," a wholly delightful attraction will be shown at the Alhambra theatre tonight, with handsome Montague Love and beautiful Dorothy Kelly as the co-stars. The story is laid in the Bohemian artists' colony in Paris and the principal characters are Jacques Iteville, a mightily gifted but slovenly artist who is so disagreeable that he has been dubbed "The Beast," Marguerite, a French girl, and Harry Hamilton in the part of one-act comedy playlet "The First Kiss." White Miss Iteville is a new recruit in the ranks of vaudeville, she is never the less a star of international reputation having been at the head of her own company for several years. The playlet "The First Kiss," which she is offering this season, is full of tense situations and happy smiles and a sweet little Quaker maid who has been rigidly reared in the faith of her people and who upon receiving her first kiss, sees life in an entirely different light and wants another. You are going to like it for seldom has a vaudeville offering ever been offered to a vaudeville audience.

**LYRIC.** Noted Actress Coming. One of the most important announcements of the coming season at the Lyric theatre, is the appearance of the noted comedienne Nancy Boyer at this popular playhouse, supported by an all star cast which includes Arthur Chatterton, late featured with "Ben Hur," Henry Testa, Jeanette Tarr and Harry Hamilton in the quartet one-act comedy playlet "The First Kiss." White Miss Boyer is a new recruit in the ranks of vaudeville, she is never the less a star of international reputation having been at the head of her own company for several years. The playlet "The First Kiss," which she is offering this season, is full of tense situations and happy smiles and a sweet little Quaker maid who has been rigidly reared in the faith of her people and who upon receiving her first kiss, sees life in an entirely different light and wants another. You brush your  
teeth regularly——why, then, have  
you tooth troubles?

After brushing them tonight, feel along the hidden rear surfaces of your teeth. Don't be surprised to find tartar deposits and shreds of food still lurking in the crevices.

Your dentifrice does not FULLY CLEAN—fully cleans and also is particularly destructive to disease germs.

Tartar, as you know, is simply a nest of germ-infested matter. It is the favorite home of the germ which causes Pyorrhea. In this disease the gums get soft, sore and bleed readily. Later you may not only lose your teeth, but the infection can spread through the blood and cause serious bodily ailments.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c.

Send 4c. to Senreco, 304 Walnut St., Cincinnati, Ohio, for liberal sized trial package.

 A PAIR

The following unusual letter has been received from George Dorsey, Jr., grandson of Mr. and Mrs. E. J. Dorsey, who, before the age of 21, enlisted and was sent to an aviation school in France:

My Dearest Father:—These terrible mails I just this hour received your great letter of October 26. A letter from sister dated October 16, also came today.

I am at Stantford, it being about a dozen miles from my home town. I should like to tell you how excited I've grown to have a very profound respect for English officers, and am well with them from morning till night. On the here is a great romance. We fought down occurrences in a little diary and they will always be vivid remembrances.

It is so important thing to talk to you, because I think that is what I am doing now. I am quite a solo artist now. I've had about nine hours alone in the air, and have had enough of the thrill to be fairly confident. I think I shall make a steady flyer—hardly a brilliant one. However, it is up to me to try a loop the next time I go up. It's pretty hard or dangerous. It is simply a scary experience. I'll tell you more later.

**Dandruff Heads**  
**Become Hairless**

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about your corners of ordinary hair oil, and add a few drops of kerosene; use constantly to loosen the scalp and rub it in gently with the finger tips. By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching, and scalp and scalp, and your hair will look as if it were coming out better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

of Newark Division, will hold  
a meeting in convention room of  
Court House, Friday, January 11th  
at 7:30 p. m. Election of officers.  
A large turnout is desired.—M. L.  
Hedman, president. 1-10-17

**BILL BLANK.**  
In reading the death reports, I see  
that old Bill Blank left \$10,000 to  
his wife and three children; and we  
are betting two to one that the first  
thing Bill's widow does with that  
money will be to buy a player piano  
for their home, because everybody  
knows Bill was such an old tight-  
wad and so stingy that the kids  
never did have a good time at home.  
Now this is a modern fairy tale, but  
the reason many homes are not at-  
tractive places for the young folks  
to play is because they do not have  
a player piano to make the home en-  
joyable.  
Talk it over with P. J. Fairall,  
2 North Fourth street. 1-10-17

On and after January 10, 1918,  
we the undersigned have agreed to  
make a charge of \$10.00 for operat-  
ing room for all major operations,  
owing to the high cost of materials  
used.

**CARPENTERS' NOTICE.**  
There will be a meeting of Car-  
penters Union, Friday evening, Jan-  
uary 11 in Odd Fellows Hall, they  
having moved from Redmen Hall.

**Don't Neglect Your Feet.**  
This is the season of the year when  
one should be particularly careful  
about getting wet feet, and the only  
way you can prevent it is by wearing  
substantial footwear.  
We do shoe-repairing of all kinds  
and can serve you promptly. We  
use only the best grade of leather  
and turn out the neatest and best  
work. Our prices are reasonable and  
satisfaction goes with every job  
we turn out.  
This is the reason we are always  
busy.

**Chiropractor P. S. Stokes.**  
Dr. Paul P. S. Stokes, chiropractor  
and corner of Knox county, who in  
his frequent visits to Newark has es-  
tablished a splendid patronage, is  
about to open an office in Zanesville.  
He will be in Newark on Mondays,  
in Zanesville Tuesdays, Wednesdays  
and Thursdays and in Mt. Vernon  
Fridays and Saturdays. Dr. Stokes  
will be usual be at the Newark San-  
itarium while here. His Zanesville  
office will be 57 South Seventh

**Birth Announcement.**  
Mr. and Mrs. Leslie Swartz of  
Granville announce the birth of a  
son, born January 8th.  
Receives Commission.  
Dr. W. D. Bishop of Alexandria,  
O., who recently received a commis-  
sion of first lieutenant in the medi-  
cal corps, is to report for duty at  
Camp Fairfield, Dayton, O., Friday  
morning.

**Neal Avenue Service.**  
meetings at the Neal avenue church,  
Tuesdays and Wednesdays, showed  
the people followed the hints handed out  
Monday evening, and were there  
bringing someone else. After 15  
minutes of song service the Rev. Mr.  
Kemper read the last prayer. He  
took as the subject for the evening  
"The Christian Dress." The belt of  
the Christian is truth, the head-dress  
is righteousness, the feet are shod  
with grace, the shield is faith, the  
glittering sword is the spirit of God,  
and the trimmings of a Christian  
dress are humility. The services  
closed with song and prayer. Wed-  
nesday, Rev. Mr. Kemper spoke on  
"The Seven Joys of Thursday."  
Monday night he will speak on "The Devil's  
Six O'clock Dinner," and Friday  
night, "Sifting."

**Newark Lutheran Charge.**

**An Old Subscriber.**  
One of the oldest Advocate sub-  
scribers in the county is T. D. Law-  
rence, 25 North Williams street.  
The Advocate has been in the Law-  
rence family for the past 62 years.  
Mr. Lawrence's father having sub-  
scribed for it in 1856.

**Stork Pays Visit.**  
Mr. and Mrs. Glenn S. Bizzard,  
Ruggs avenue, announce the birth of  
a daughter, the little one arriving  
at their home at 6:30 o'clock this  
morning.

**Birth Announcement.**  
Announcement is made by Mr. and  
Mrs. John Dicks of a birth of a son  
on January 9. Mrs. Dicks was for-  
merly Miss Lena Blessing, Wilson  
street.

**Not Gas Explosion.**  
An investigation of the explosion  
which wrecked the office of W. W.  
Ruggs, hipster, South Park Place,  
has disclosed the fact that it was  
the steamboiler used in making  
paste, which is used in his work. At  
first it was thought to be a gas ex-  
plosion.

**Home on Furlough.**  
Oliver Parr, who is with the mil-  
itary police company at Camp Sher-  
idan, Montgomery, Ala., is visiting  
at his home in Bates street on a fur-  
lough.

**Condition Improved.**  
The condition of Mrs. May Coult-  
er of Eleventh street, clerk at the  
general delivery window at the  
postoffice, is slightly improved to-  
day. Mrs. Coultier is suffering with

**LIKE TO GET RID**  
**OF THAT CATARRH?**

Well, here is your opportunity. I  
am going to give away, during the  
next ten days, two thousand packages  
of Gauss Combined Treatment to those  
who need it, and if you want relief,  
sign the coupon at the foot of this ad-  
vice, and the free package will be for-  
warded to you at once by parcel post.  
I want to prove to you that Gauss  
Combined Treatment will relieve your  
catarrh. The method is effective, be-  
cause it strikes at the root of the  
trouble and gives permanent relief by  
removing the cause. This is the only  
correct way to treat catarrh and if you  
want quick and lasting results, send at  
once for the free package. Fill out the  
coupon below and package will be sent  
to you by return mail.

**FREE**

**SOLDIERS' LETTERS**  
The following interesting letter  
has been received from Sergeant  
Francis W. Leah, Headquarters  
Company, 166th Infantry, American  
Expeditionary Force, via New York  
City. Sergeant Leah is the son of  
Mr. and Mrs. T. W. Leah of High  
street.

"Somewhere in France,  
"December 16, 1917.  
"Dear Mother and Father—I  
have received no mail from you yet.  
I have been waiting for some time.  
I had my week-end pass to Paris a  
week ago, Friday afternoon, until  
Sunday evening. I saw about all one  
could see in that time, but the stay  
was not long enough. It only cost  
six francs—about \$1.15. Ordinarily  
in the states the fare for that dis-  
tance would be about \$3.50. This  
was second-class, for there is no dif-  
ference between first and second-  
class, only the price. The saying  
goes: that only dukes, fools and  
Americans go first-class.

"The railroad service is good and  
they have a habit of being nearly al-  
ways on time. Paris is just like New  
York—of course with a few excep-  
tions.  
"The electric street car service is  
very good and the subway is as  
good as any city in America. One  
finds women conductors on the  
trolley and subway; motor-women on  
the cars, but not the tubes. They  
have two classes on both, and it is  
best to go first in each case.  
"The eats are good and plentiful.  
I found plenty of sweets—candy,  
cakes, pastry, etc., but no ice cream.  
There is some, but I could not find  
it. They will run out soon on  
pastry, as the government is cutting  
it out.  
"I put up with several boys in my  
barracks at a hotel operated by the  
Y. M. C. A. for the service men. The  
room only cost seven francs for two  
nights; meals were excellent. There  
are plenty of places of interest in the  
city and are worth seeing. I bet it  
is a very pretty place in the summer.  
The streets are full of uniformed  
men—French, British, Canadians,  
Australians, and our men.  
"Around our schools here the  
country is very muddy. The men  
are inclined to have good many  
colds; rubber boots have been is-  
sued. I have been in good health  
and am again getting fat and  
saucy. I have an interesting time  
talking with the New York and Con-  
necticut men here. I went to the  
parish church this morning. It is a  
large affair and very quaint as they  
all are, but so differently built.  
"We are all kicking about no re-  
ceipt of mail. We have had rumors  
of the regiments moving, possibly  
that inconveniences the mail clerks  
somewhat. For the most part the  
work the boys are getting at the  
schools is very hard and the instruc-  
tors are cramping. My school in-  
volves considerable technical work  
in electricity, and I believe it is as  
tough as the rest are.  
"We don't know for sure whether  
we are going back to our companies  
or not, but will have to act as in-  
structors wherever we go. We sus-  
pect they are sending great numbers  
of troops over but could not tell  
even if we knew for sure.  
"We have an hour of close drill  
each morning before school, and  
the idea is to improve the  
smartness of our drill. We have im-  
proved a great deal over what we  
have been doing. We have had a  
British sergeant-major of the Cold-  
stream Guards, who is an expert  
instructor. He certainly puts vim  
into us.  
"I have been wondering where  
our Christmas boxes are. I wish they  
would hurry along. Keep your end  
busy and maybe I will get it some-  
time.  
Yours lovingly,  
"Francis W.

**WHY I BELIEVE**  
**IN NUXATED IRON**  
A Strength-Building for the Nation.  
By E. Sauer, M.D.  
Probably no remedy has ever met  
with such phenomenal successes as has  
Nuxated Iron. It is a powerful tonic  
that over three million people  
annually are taking it in this country  
alone. It has been highly endorsed and  
used by former United States Senators  
and Members of Congress; Physicians  
who have been connected with well-  
known hospitals have prescribed and  
recommended it; Monseigneur Nannini,  
a prominent Catholic Clergyman, recom-  
mends it to all members of the  
Catholic Church; Former Health Com-  
missioner Wm. R. Kerr, of Chicago,  
says it ought to be used in every hos-  
pital and by every physician; Dr. Sarah  
Bernhardt, "the world's most noted actress,  
has ordered a large quantity sent to  
the French soldiers to help care their  
strength, power and endurance.  
Dr. A. J. Newman, late Police Surgeon  
of the City of Chicago, and former  
House Surgeon Jefferson Park Hos-  
pital, Chicago, says Nuxated Iron has  
proven through his own tests of it  
to excel any preparation for the  
purpose of creating red blood, building  
up the nerves, strengthening the muscles  
and preserving the digestive system.  
Dr. H. B. Vail, formerly Physician in  
the Baltimore Hospital and a Medical  
Officer during the Spanish-American  
war, has prescribed Nuxated Iron and  
survived patients at the rapidly with-  
drawn the weakness and general de-  
bility were replaced by a renewed feeling  
of strength and vitality.  
If you are not strong or well, you  
owe it to yourself to take the follow-  
ing test: See how long you can work  
or how far you can walk without be-  
coming tired. Take three or four  
tablets of Nuxated Iron three times  
per day after meals for two  
weeks. Then test your strength again  
and see how much you have gained.  
NOTE:—Nuxated Iron, which has  
been used by former Members of the  
United States Senate and House of  
Representatives, and other prominent  
people with such surprising results,  
and which is prescribed and recom-  
mended by physicians in every part  
of the world, is not a patent medicine  
nor secret remedy, but one which is  
well known to druggists and whose  
iron constituents are widely prescribed  
by eminent physicians everywhere. Un-  
like the older inorganic iron products,  
it is easily assimilated, does not injure  
the teeth, make them black nor upset  
the stomach; on the contrary it is a  
most potent remedy in nearly all forms  
of indigestion as well as for nervous  
run-down conditions. The manufactur-  
ers have such great confidence in Nux-  
ated Iron, that they offer to forfeit  
\$100 to any charitable institution if  
they cannot take any man or woman  
under 60 who lacks iron and increase  
their strength 100 per cent. or over in  
four weeks' time, provided they have  
no serious organic trouble. They also  
offer to refund the money if it does  
not at least double your strength and  
endurance in ten days' time. It is  
dispensed by Wm. A. Erman, Evans  
Cut Rate Drug Store and all good  
druggists.—Adv.

### FORMER NEWARK MEN HONORED IN BANK ELECTIONS

(Special to The Advocate.)  
Coshocton, Jan. 10.—Three former Newark men have been honored in the election of officers for the Coshocton National Bank. M. Q. Baker, T. L. Montgomery and R. Q. Baker, M. Q. Baker was elected president and T. L. Montgomery, who has been cashier of the institution since its organization was promoted to first vice president; F. E. Pomerene was elected second vice president and R. Q. Baker, formerly assistant cashier, was elected cashier.

The officers reported a most successful year and prospects for 1918 look even still better, the deposits of the bank being higher than ever before in its history. A regular dividend of 5 percent was declared and an extra dividend of 4 percent. Preceding the directors meeting a stockholders meeting was held. H. C. Strong, also a former Newark man, was elected on the board of directors.

**NEWARK MEN HONORED.**  
Columbus, Jan. 10.—Three former residents of Newark were re-elected to responsible positions in the New First National bank at the annual meeting—Charles M. Wing, Charles R. Shields and E. W. Swisher. Charles R. Shields was re-elected president, vice presidents, Charles M. Wing, Henry C. Werner, Charles R. Shields, assistant cashiers, Henry Pausch, Jr., Edgar L. Abbott, L. Francis Wills, directors, W. J. H. Jones, Henry C. Werner, Charles R. Shields, Charles M. Wing, W. C. Mooney, Jr., E. W. Swisher, John Amicon, Charles R. Shields, Edgar L. Abbott, Frank R. Main.

### RELIEVES THAT WHEEZY COLD

Proper time to check a cough is at the first symptom. Delay is dangerous.

If you are still neglecting your cough, the sensible thing is to stop taking chances and begin taking Dr. Bell's Pine-Tar-Honey. Treatment with this effective balsam remedy should give you quick relief. You will notice its soothing effect on the air passages from the first dose. As its name implies, it contains ingredients proved to allay inflammation, quiet coughing and tickling in the throat, and to loosen and expel the phlegm. Don't lose time from your work. Take a dose of Dr. Bell's Pine-Tar-Honey promptly and regularly as directed. Your cold or cough will be broken up, and its ill-effects thrown off. The taste is so pleasant, children take it readily.

### IF STOMACH HURTS DRINK HOT WATER

Neutralize Stomach Acidity. Prevent Food Fermentation. Stop Indigestion.

"If dyspeptics, suffers from gas, wind or flatulence, stomach acidity or sourness, gastric catarrh, heartburn, etc., would take a teaspoonful of pure Bismarck Magnesia in half a glass of hot water immediately after eating they would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients." In explanation of these words a well-known New York physician stated that most forms of stomach troubles are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and Bismarck Magnesia, which can be readily obtained at any reliable drug store, in either tablets or powder, instantly neutralizes the excessive stomach acid and stops food fermentation, the combination of the two, therefore, being marvelously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines for indigestion. 1-10-1

### PUBLIC SCHOOLS TO TEACH THRIFT AND WAR SAVING

The government has called upon the schools of the nation for a very real service. Two billion dollars worth of Thrift stamps are offered for sale to the people of the nation before January 1, 1919. The school children and teachers of Ohio are asked to purchase \$6,000,000 worth of these stamps. Newark schools' quota is \$30,000. Superintendent Hawkins will start the Newark campaign January 14, according to the following plan:

1—One opening exercise each week in every school-room shall be given up to a talk by the teacher or someone selected by the teacher, upon the War Savings or Thrift stamps. (Must not exceed 10 minutes).  
2—Every teacher shall arrange a roll of names of her pupils, and on Friday at 1 o'clock of every week, shall call the name of every pupil who will answer the number of Thrift stamps purchased that week.

3—The teacher will report the total number of savers and the total amount of money invested that week by pupils and teacher to the principal.

4—The principal will report the total number of savers and amount purchased by pupils and teachers to the office of the superintendent immediately after the schools close each Friday.

5—The first report will be made on Friday, January 18, and at this time pupils and teachers, as their names are called, will report the total amount at that time invested in Thrift stamps. Only the additional purchases will be reported each week thereafter.

6—Teachers and principals are not required but may keep Thrift stamps for sale to pupils.

7—The aim is that every pupil and teacher start saving at once by buying a 25-cent Thrift stamp and obtaining a Thrift card.

8—The superintendent will tabulate the amount reported and the number of savers, by buildings, and the same will be published in the daily papers.

9—This work must be done in a minimum of time and in a business-like manner. For the next year teachers will consider it a regular part of the school work, to be attended to with punctuality and dispatch.

10—If for any reason school should not be in session on Friday, report the first thing on Monday following.

11—Special teachers and teachers not having regular groups of pupils in charge will report their savings to some teacher or principal each Friday and this will be credited to the building reporting it.

12—Janitors of each building will report with that building.

13—Our aim is that just as soon as possible, every pupil, teacher, principal, janitor, clerk and superintendent, will be the possessor of a Thrift card and a purchaser of Thrift stamps, and that all will be reported from week to week by some building, helping to realize that building's quota.

14—In reporting, the name of no individual will be given, and every care must be exercised not to humiliate any pupil.

15—The following is the allotment for each building. In making this allotment the age, grade, ability of pupils, and the number of teachers are taken into consideration. Teachers are put down for \$52 each. Some teachers may not find it possible to do this, but others may be able to do much more.

Building	Teachers	Pupils	Total
High School	\$1500	\$3000	\$4500

### WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors.

Mrs. J. O. Patterson, 43 S. Williams St., Newark, says: "Last fall I suffered severely from pains and lameness across my back. My kidneys were disordered and did not do their work properly. I had a tired, miserable feeling all the time and would get so dizzy and nervous as could be. It was hard for me to do my housework. I bought Doan's Kidney Pills at the City Drug Store and they soon brought me relief."

### FRENCH ARMY OFFICER WILL TELL OF THE WAR

At the high school auditorium next Monday night, Lieutenant Paul Perigord of the French army will address the public on the world-war. He comes to Newark through the courtesy of President C. W. Chamberlain of Denison University, Granville, and is to be here under the auspices of the Newark Rotary club. Admission will be free; there will be no collection and no solicitation for funds.

Lieutenant Perigord will talk on the subject "From the Marne to Verdun." He has participated in the important battles all along the western front and until seven weeks ago was in the trenches. He was educated and ordained a Catholic priest, and prior to declaration of war was a student at different American universities.

### NEWARK PAPERS ARE COMPLEMENTED BY STATE DIRECTOR

(Special to The Advocate.)  
Columbus, Jan. 10.—The state headquarters of the Ohio war savings committee is a busy place these days. Director H. P. Wolfe, Secretary J. A. Kelley and a large force are busy in directing the campaign, which aims at the sale of \$105,000,000 worth of Thrift stamps and War Savings stamps in Ohio during the present year. As the campaign is to continue until December 31, the organization is being carefully made and everywhere plans are under way to bring good results.

Director Wolfe is keeping a careful check on the work of each county, including a file of all newspaper articles which are handled through a clipping bureau. In complimenting the Newark papers he said this morning that to date the Newark newspapers have given by far the greatest publicity to the Thrift campaign of any in Ohio, and in this connection he remarked that the sale of stamps in Licking county to date is leading in proportion to population. Mr. Wolfe was informed by wire from Newark yesterday that the supply of stamps at the Newark postoffice had been exhausted and that Postmaster Mercer had obtained a temporary supply from the local banks. Mr. Wolfe said that arrangements would be made to send to Newark all the stamps that are needed. Licking county's share for 1918 is \$1,236,150.

Mr. Wolfe said that the plan started in the Newark National Gas & Fuel office of stamping each gas card with a suggestion to buy savings stamps is now being taken up by public service corporations all over Ohio.
